THE CONVENTION OF THE REPUBLICANS OF THE STATE OF NORTH CAROLINA, WILL MEET IN THE CITY OF RALEIGH, ON THE SEVENTH DAY OF JULY, 1880, FOR THE PURPOSE OF NOMINATING TWO ELECTORS AT-LARGE, AND STATE OFFICERS.

BY ORDER OF STATE EXECUTIVE COMMITTEE.

LATEST NEWS.

Oregon has gone Republican, including the member of Congress and three Justices of the Supreme Court.

Ex-Senator Bayard of Delaware, the father of the present Senator, lies at the point of death.

The Utica *Observer* asserts that Gov. Seymour inflexibly declines to permit his name to be used as a candidate for the Presidency. He deems it immoral for any one to enter upon a public office when his health is unequal to the performance of its labors. There is meat in this.

Mr. James E. Boyd of Alamance has been appointed, and confirmed by the Senate, as District Attorney for the Western Judicial District, in place of Hon. Virgil S. Lusk of Asheville, who has held the office for 8 years, and whose term has expired.

The Western Union Telegraph Company shows a net earning of $5,300,000 for the present fiscal year. It has paid 8 per cent. on the capital stock, and spent very largely in improvements.

The River and Harbor Bill amounts to $8,920,500.

The General Tariff Bill has failed to pass, which was urged by Fernando Wood, and the old tariff is left substantially unaltered.

TERRIBLE SHIPWRECK.

As the Long Island Sound steamers, Narragansett and Stonington, were opposite the mouth of the Connecticut river on Friday night, they collided in a dense fog and sank in forty fathoms of water. It is impossible to ascertain the loss of life. The City of New York of the Norwich line took off some of the passengers.

The Baltimore *American* thinks the ticket a very strong one, and in its editorial to-morrow will say: "If Gen. Garfield was a 'dark horse' in the sense that he was not a candidate for the nomination, he was not a 'dark horse' in the sense that he was an obscure negative man. On the contrary, there is no man in the country who has rendered more constant and laborious public service or whose opinions on all public questions are more fully and completely put upon record. As the leader of his party in the House of Representatives, he occupies the position which, under the English constitutional system, would entitle him to the Premiership. In his case, the candidate is indeed the platform, and makes any defects or short-comings in that document a matter of small moment."

ABOUT WHITTAKER.

A *Herald* correspondent writing from West Point of the examination of the first class says:

The second class in chemistry, mineralogy and geology was under examination in the library to-day and included among its members the notorious Cadet Whittaker. No one, except he had microscopic eye, would detect that he was a colored man. He looked quite as white and proper as the cadets sitting next him, and when he came up for examination he snowed no inferiority to his Caucasian companions, and if anything was rather more self-possessed and more lucid. He has now the limits of the barracks in place of his room, and looks and feels more cheerful Several of themembers of the Board of Visitors have had long talks with him, and he has appeared to impress them favorably. Senator Edmunds was speaking the other night about the case, and expressed himself to the effect that he looked upon expert evidence as a humbug, and without saying anything definite one way or the other left the impression on his hearers that he thought there were some further developments needed before the case of Whittaker could be settled satisfactorily.

FROM WASHINGTON.

How the Republican Nominations Was Received.—A United and Vigorous Campaign Assured.

WASHINGTON, D. C., June 10, 1880.

HOW WASHINGTON RECEIVED THE NOMINATION.

Washington is the political center of the country, and from the negro who washes out public spittoons to Cabinet Ministers, all are politicians. On Saturday and Monday Congress was in session only to hear the news from Chicago. The clerks in the departments attended only to the reports of the ballots taken in the National Convention. Nothing else was talked of, and nothing else was talked about. When the end came last Tuesday—well, to put it mildly—the result was a surprise. If at first there was a feeling of disappointment that neither of the prominent candidates had been nominated, with a moments reflection came the growing conviction that under the circumstances the very best thing that could be done, had been done.

THE UNWRITTEN LAW HAS BECOME THE LAW OF THE LAND.

One of the oldest and most eloquent Republican members of the House said: "The Chicago Convention has settled the point that so long as this nation remains a Republic no man will ever again attempt to obtain the Presidency for a third term. If any man in the country could have overcome the feeling of the people in favor of this principle of our unwritten law, Gen. Grant was that man. But in spite of all the respect, and love, and gratitude felt for him by the masses, and in the face of the utmost efforts of the most skillful political leaders and stead-fast friends, he was rejected by the people on that ground alone."

"IT LETS US OUT."

The temper of the Grant men can best be shown by quoting from Hon. Geo. Hazelton of Wisconsin. When asked his opinion, he said: "The struggle between the Blaine men and Gen. Grant's friends had lasted so long, and had become so bitter that bad blood had grown up between them. This nomination lets us out, because Gen. Garfield is one on whom all of us can unite. He is a whole souled, broad-guaged man. If he has a weakness it is a desire to make friends of his enemies, and the Democrats ought not to find fault with that.

IT WAS GOOD POLITICS

to nominate him. He will carry Ohio in the October election just as easy this year as he and Gov. Foster did last year. That will be a regular boom for us in the November elections. He will have the Conkling, Sherman and Blaine influence in New York—and does any one doubt that with a united party we can carry that state? Why, sir, just as we expected every Republican to work for us if Grant had been nominated, so will every Grant man do his level best for the man who carried his stars on the battle fields of the west.

YOUNG MEN TO THE FRONT.

There is another point in this nomination. It means that the regular politicians did not succeed and that the younger men of the party did. You will see that the young men will come to the front in this campaign, and in a certain sense there will be a new deal. That is in the nature of things. For one, I am glad of the coming change."

DEMOCRATS DISAPPOINTED.

Senator Augus Cameron of Wisconsin, said: "A few days ago Senator Pendleton gave a lunch to the Census Committee, in the committee room. There were six or seven Democratic Senators present, and Senator Morrill and myself were the only Republicans invited. Of course we talked about the Chicago Convention. I noticed that the Democrats were unanimous in saying that Gen. Grant would be our weakest candidate on account of the third term principle involved. They wanted him nominated, because they knew that many people would vote against him on that ground alone, while many thousand more would not vote at all."

I have quoted enough to show the general and hearty manner in which the nomination of Gen. Garfield is received. The Democrat who can beat him does not yet walk upon the earth.

Seasonable—Bed Bugs.

A sufferer from bed bugs writes to the Minneapolis *Housekeeper* as follows: "After we had been fighting them for eight years I learned from a girl that had served as a chambermaid in a large boarding house, that bugs can be exterminated for all time. I immediately followed her direction, which was to take grease that had been cooked out of salt pork, melt it and keep it melted (as the vessel can be kept on a pan of coals,) and put it with the feather end of a quill into every place where I could find a bug. It is necessary to see that the bed cords or slats are entirely free from the pests. It is now more than thirty years since a bug has been seen in my house."

BRUNSWICK CONVENTION.

SMITHVILLE, June 7, 1880.

TO THE WILMINGTON POST:

The Republicans of Brunswick county met in convention at the Court House in Smithville to-day for the purpose of electing delegates to represent said county in the State, Congressional and Senatorial Conventions.

The convention was called to order by Edward W. Taylor, chairman Executive Committee, who stated the object of the meeting, and also stated why he professed Greenbackism two years ago; that his intention was simply to aid a friend, that being done he is now as he has always been a *true Republican*.

Permanent organization was effected by electing Asa Ross, Esq., chairman, and L. P. Swain, secretary. The chairman on taking his position addressed the meeting at some length, speaking particularly with reference to the late railroad swindle, and the present disorganized condition of the Democratic party.

All the townships were represented; Waccamaw by proxy.

On motion of Samuel P. Swain a committee of one from each township was appointed to select delegates to attend the several conventions, and to draft resolutions. The committee through their chairman Samuel P. Swain, reported their list of delegates which was adopted, and the following resolution:

Resolved, That the present system of county government imposed upon the people of North Carolina by the Democratic is tyrannical, unjust and degrading to an Anglo-American people, and merit the condemnation of the just and candid of all political parties: that taken as an index to Democratic government, should light the tocsin of war against the enemies of popular government, throughout the Republican camp; that the Republicans of Brunswick county reiterate the avowed principles of civil and political liberty, equally accorded to all her citizens.

It was also moved and carried that the delegates appointed to the several conventions be not instructed or pledged for any particular candidate, but a preference for Hon. R. P. Buxton for Governor, and Hon. W. P. Canaday for Congress was expressed by the convention.

ASA ROSS,
Chm. Rep. Co. Convention.
L. P. SWAIN, Secretary.

Republicans of Carteret.

JUNE 10th, 1880.

EDITOR POST:—A meeting of the Republican Executive Committee of Carteret county was held in Beaufort on June 3d—J. W. Bushall, Esq., presided. All the townships were represented.

It was resolved that a call be issued for a county Republican convention to assemble in Beaufort on Tuesday, October 5th, 1880, and that the Republicans in each township be requested to hold meetings on Saturday, September 18th, and appoint delegates to the said convention.

The following delegates were appointed to the state convention, viz: Geo. Mason, Willoughby Prescott, Jere Thomas, C. C. Bell and seventy-two others.

The delegates to the congressional District convention are C. C. Bell, D. S. Weeks, J. R. Doughty, and thirty-three others.

The convention then adjourned.

L. A. SKARREN, Secretary.

The report of the Commissioner of the Bureau of Agriculture for May says that, owing to the dry weather in the early part of the month, serious misapprehension was felt for the safety of all the crops, but the propitious rains of the latter part of the month have materially changed the condition of things. He makes the following averages for the crops named: Wheat, 67; corn, 94; tobacco, 77 in Middle and 81 in West Tennessee. The fruit prospect is very fine, except in regard to peaches, which will not be an average crop. The grass crop is unusually fine, and will be large. The cotton average for West Tennessee is over 100, and for Middle Tennessee 97.

Less expensive will it be to irrigate the plains of Kansas, than to dry the lakes and seas of Holland. The lakes of Holland were not dried in a day; neither will the Arkansas valley be irrigated in a day, but by preparation beforehand and the accumulation of a supply of water on the surface to be in constant readiness when needed, the long dry spells will be deprived of their power to ruin the prosperity of the country.

A drunkard fled into the woods, near Nashville, Tenn., while wild with delirium tremens, dug a grave, and was found lying in it dead. His wife was made frantic by the sight, and she loudly called upon heaven to let her die too. It happened that, on her way home, lightning struck and killed her.

The manufacture of clothing in Chicago has doubled in four years, and gives employment to 30,000 people.—The value of the goods made is $15,000,000.

STATE NEWS.

The Charlotte *Courier* says that it is not true, as charged, that Col. William Johnson is using money to buy up delegates to the 6th Congressional convention. It publishes a card from "C. McDonald" denying that he ever offered him any money. Inasmuch as a Democrat must probably go from that district, we think that party would do a graceful thing by taking a citizen really so estimable as Col. Johnson.

The Asheville *Journal* is enthusiastic over the brilliant prospects of that aerial city. It says:—

We have daily applications for rooms. The hotels are busy preparing for summer—some are already full, and the influx of people for the summer has barely commenced. Surely the God of the universe has done a great deal for Western North Carolina, and especially for Asheville. He has given us the purest air that there is upon the earth, the purest crystal water, and our people general good health and plenty to subsist upon.

The Reidsville *Democrat* gives the following curious piece of information:—

We are informed that a "Non-Combattant's Club" has been formed in Reidsville, composed of men of all parties, and the organization is to continue throughout the campaign. We hope its membership will soon embrace all who talk politics.

The Raleigh *Post*:—

The whole operations of our State Treasury amount to receiving and paying out a half million of dollars annually. Mr. Julian Carr, as the financial manager of Blackwell & Co., handles one order of goods that it would take all the resources of the Treasury of North Carolina to pay for, and that comprises not one month of his year's operations.

The Elizabeth City *Falcon* pokes fun at the Mc's of Robeson county. It says that its newspaper is edited by McDiarmed and McMillan, that at the meeting of the bar to condole the death of Col. N. A. McLean, N. McLean presided, F. McNeil was secretary, J. D. McIver and F. A. McNeil were a committee to draft resolutions, and that McCormac reports the markets, McLeod is a leading merchant, McIntyre and McMillan are census takers, N. McP. McNeil has opened a store, Duncan McLellan has got married, McCrae is Captain of the Shoe Heel Rifles, and McKay and McKinnan have the measles.

The Elizabeth City *North Carolinian* says:—

Fellow-Republicans, we can and will succeed if we shall be true to ourselves. Let the animosity of factions cease—let the stale cry of color be hushed and forgotten, and let us all come together with the common purpose, to perform our first duty to our party and our country. Men are emancipating themselves from the slavery of the Democratic party, and are willing to assist us, provided by our action, we do not repel them.

The Wilson *Advance* advocates a town clock for that beautiful but small city.

Dr. F. J. Haywood, an eminent physician of Raleigh, N. C., died at his residence, in that city, on Sunday, the 30th ult., in his 77th year.

We have had the hottest May for the last ten years.

The Winston *Republican* is learned in local history as appears from the following:—

Sampson county was, in 1748, formed out of a portion of Duplin county, and named after Col. John Sampson. In Clinton, the county seat, lives the Hon. George V. Strong, who is the grandson of Col. Sampson, which relationship seems natural enough.

The Greensboro *Patriot* says:—

We learn that more than 5,000 persons were in the procession formed at Graham on Saturday, to attend the unveiling of the monument on the battle ground of Alamance. Hon. D. G. Fowle, Col. T. M. Holt, Hon. K. P. Battle, and Hon. John Manning were the orators. After the speaking dinner was announced, and everybody had enough and much was left.

The census enumerators in this city seem confident that there are over 20,000 persons in this city. That will give us three postal deliveries for the city, with one additional for every additional thousand.

The through mail which has for a few days past been arriving here on the through freight train from the north has been taken off again. This is done by orders received from Washington City.

The fourth annual convention of the Y. M. Christian Association will convene in Raleigh on Thursday the 17th inst., at 8:30 p. m., and will continue with three meetings daily, during Friday and Saturday, closing Sunday evening with farewell addresses.

There has been a report that the Steamer Passport was about to be taken away from this port, and thus the public lose the benefit of the excursions down the Cape Fear during the summer months. We have it on very good authority that it is not by any means settled that this is so.

BURGLARY.—A burglar entered the residence of Mr. J. H. Hanby, on Sixth, between Dock and Orange streets, last night, and carried off Mr. Hanby's watch, besides other valuables. The thief entered at one of the windows. We have not the full particulars of the burglary.

CAPE FEAR COMPANY.—At an election for officers of the Cape Fear Steam Fire Engine Company, held Monday night, the following were chosen:

Foreman—Valentine Howe.
First Assistant—Emanuel B. Jones.
Treasurer—Elias Campbell.
Secretary—Godfrey Willis, Jr.

THE ESCAPED BURGLAR.—George Myers has at last succeeded in breaking jail, and is now in all probability in South Carolina. He was chained to the floor of his cell but in some way broke his shackles, then the iron bars to the cell door and picked through the wall of the jail and made good his escape.

MORE CONNECTIONS. The Wilmington and Weldon railroad now controls the Wilmington, Columbia and Augusta, North Eastern, Cheraw and Darlington, Cheraw and Wadesboro, Charleston and Savannah, and the Atlanta roads, with Capt. Jno. F. Divine as Superintendent. Capt. D., we understand, enters upon his new duties on the 15th instant. He will continue to have his headquarters in this city.

MORTUARY.—From Dr. J. C. Walker, Superintendent of Health, we have the following reports of deaths in the city of Wilmington for the month of May:

Whites—Males 3, females 3; 3 adults and 3 children. Total 6.

Colored—Males 11, females 21; 14 adults and 18 children. Total 32.

Grand total 38.

SOUNDINGS FOR MAY.—The pilots report the following soundings as made by them during the month of May:

Bald Head Channel, 12 feet 6 inches.

Western Bar, 12 feet 6 inches.

As the rise of tide is seldom less than 4½ feet this gives 17 feet clear. Frequently the rise is more than 4½ feet and with spring tides or an easterly wind 18 feet clear may sometimes be had.

An anti-duelling association has been formed at Camden, S. C., the frequency of duels in that vicinity having aroused public sentiment against the practice. Thirty-nine gentlemen signed the resolutions, and Judge J. B. Kershaw was elected President of the association. Its objects are declared to be to educate and organize the moral sense of the people against the wicked and pernicious practice, to take proper measures to procure an adjustment of all personal difficulties in the county, and to enforce the laws against duelling in every case of their violations.

LADIES' MEMORIAL ASSOCIATION.—At the annual meeting of the above named association, held recently, the officers and managers were elected for the ensuing year:

THE WILMINGTON POST.

W. P. CANADAY, Ed'r & Prop'r.

WILMINGTON, N. C.,
SUNDAY MORNING, JUNE 13, 1880.

FOR PRESIDENT,

JAMES A. GARFIELD

OF OHIO.

FOR VICE-PRESIDENT,

CHESTER A. ARTHUR

OF NEW YORK.

THE COMMITTEES OF THE CHICAGO CONVENTION.

On the Committee on Organization was Gen. Rufus Barringer of North Carolina. On the Committee on Rules and Order of Business, Gen. Garfield Chairman, was Captain O. H. Blocker of this state, on the Committee on Credentials, Geo. W. Price, Jr., of this state, and on the Committee on Resolutions, James H. Harris of North Carolina, and on the Committee on Permanent Organization, Hon. D. H. Starbuck.

It is said that a tract of some fifty thousand acres of land, on the Northern Pacific Railroad, has been bought for a colony of emigrants from Belfast, Ireland.

A St. Petersburg dispatch says: "The Empress of Russia died when asleep, and none of the members of the imperial family were present, as they were not aware that her death was so near. On Saturday the body was conveyed to the Palace chapel in an open coffin borne by the Czar and eighteen Grand Dukes.

Poor John Brougham is in fact dead. He was, indeed, a man of sorrows although he constantly ministered to the pleasure of others. Lester Wallach relieved his last hours by his liberality. The Lotus Club of which he was once President, eulogized him as a playwright, actor, poet, journalist and scholar.

Beryl is a mineral closely allied to the emerald. The finest is found in Duaria, in the frontiers of China, in Siberia and Brazil. It is of great hardness and beauty, and when transparent is set as a gem. One Mr. Bowker of Worcester, Mass., has obtained from his beryl mine in Royalston some crystals which experts have pronounced the most valuable of any ever obtained in this country.

The extraordinary number of ballottings at the late Chicago Convention has occasioned much comment. Mr. Hayes in 1876 was nominated on the seventh vote. This is the highest Republican vote since that party was formed, until now. Fremont in 1856 was nominated on the first ballot, Lincoln at Chicago on the third, in 1860, and the second time by acclamation, and Grant on the first vote at Chicago, in 1868 and by acclamation on the second in 1872. The Democrats nominated Buchanan on the seventeenth ballot, and at Charleston in 1860 the ballots ran to 57 before the seven southern states withdrew. In 1868 Seymour was nominated on the twenty-second ballot.

Mr. Agee Takato, Secretary of the Japanese Legation, committed suicide on the morning of the 6th inst. He was found on the floor of his parlor with a pistol in his hand, with which he had shot himself through the brain. He had received a first-class education in this country, and was a gentleman of unusual ability and of the most agreeable manners. Before being assigned to a place on the legation here, he had held an important official position in Japan. The only clue to the cause of the suicide was a letter left by him, written in the Japanese language, in which he stated that he had been concerned in the insurrection of 1877 in Japan, and had forfeited his honor.

CONVENTION IN ENFIELD.

ENFIELD, HALIFAX CO., N C.

The Republicans of Enfield met on the 7th inst., and H. E. Williams, Esq., the chairman of the Executive Committee called the meeting to order. W. H. Arrington was then elected chairman, and James R. Lee, secretary.

By order of convention the chairman appointed a committee of five to report suitable names for delegates and alternates to the county convention, consisting of the following named gentlemen: Warren Hartman, Alex. Scott, Daniel Gunter, Ben Burnett and Henry Clay.

The committee reported the names of W. E. Williams, Robert Parker and Henry Clay for delegates, and Daniel Gunter, Ephraim Johnson and J. P. Weaver for alternates, which was unanimously adopted.

J. R. Lee offered the following resolution which was unanimously adopted:

Resolved, That we hereby endorse Hon. J. T. Reynolds for Congress, and that our delegates be and they are hereby requested to advance his interest in the Halifax Convention on the 19th June to their utmost extent.

Mr. Robert Parker offered the following resolution which was adopted:

Resolved, That the proceedings of this meeting be forwarded to the Wilmington POST with request that they be published.

On motion the convention adjourned.

W. H. ARRINGTON, Chairman.
J. R. LEE, Secretary.

TELEGRAM FROM MR. CANADAY

CHICAGO, June 8, 1880.

TO THE WILMINGTON POST:

Garfield was nominated at 2 o'clock on the thirty-fifth ballot by a combination of the Blaine and Sherman forces. Conkling, Logan and others, made speeches. The nomination was made unanimous. Keogh, Young, Hardin, Cooper and Myers, of the North Carolina delegation, voted against his nomination. The enthusiasm was immense.

GARFIELD FOR PRESIDENT.

Long before most of our patrons read this issue of the POST, the news will have reached all corners of the country that GEN. JAMES A. GARFIELD of Ohio, has been nominated by the National Republican Convention at Chicago, on the 8th day of June, as its candidate for President of the United States.

The last ballot stood:—Ulysses S. Grant, 306, James G. Blaine, 42, John Sherman, 3, Elihu Washburne, 5, James A. Garfield, 399. It will be perceived that the vote was a full one, every member of the Convention voting except Senator Hoar of Massachusetts, the Chairman. At several of the earlier votes, Gen. Garfield had received one or two votes, and on the 34th he received suddenly 17, on the 35th a vote of 50, and on the 36th 399. It will be seen also that 9 came from Grant, all but 42 from Blaine, all but 3 from Sherman, and all but 5 from Washburne. This is probably, as exact a measure of Grant's real strength in that memorable body, as will ever be developed, though the same rule does not apply either to Blaine, Sherman or Washburne. Windom had already disappeared from the lists.

Gen. Garfield was born on the 13th of November, 1831, and consequently will, about the time of his election, have reached his fiftieth year. He graduated at Williams College, Massachusetts, in 1856, and soon settled in the practice of law. He was a member of the Ohio Senate in 1860, and entered the army as Colonel of the 42nd Ohio Volunteers in 1861, was made a Brigadier-General in 1862, and subsequently a Major-General. He distinguished himself in many battles, and as chief of staff under General Rosecrans.

His political life began in 1862, when he was elected a member of the thirty-eighth Congress from the 19th district of Ohio, and was re-elected to the thirty-ninth, fortieth, forty-first, forty-second, forty-third, forty-fourth, forty-fifth and forty-sixth Congresses, and was also elected to the United States Senate to succeed Senator Thurman, whose term expires next March.

Of his career in Congress, of the debates and scenes in which he mingled, of the important committees on which he labored, of his untiring industry and fidelity, of his gradual growth as a statesman to the highest rank, so that he became the acknowledged leader of the House of Representatives, we cannot speak now as fully as we may after looking over his long and honorable record. His life and all the minutiæ of his career will soon be published in glowing language after the manner of candidates for President, and any one who wants to know anything about JAMES A. GARFIELD, will speedily get all the information at hand.

It may be said, as truly as was ever claimed of any candidate for President, that he is, in all the qualities of intellect and character and morals and experience and capacity and acquirements, a fit Executive of this great nation. His formal letter of acceptance will soon appear, from which a full knowledge of his opinions on public affairs will be learned, in addition to the Platform adopted at Chicago, which we publish to-day, on which Gen. Garfield plants himself, and which he will accept and endorse.

THE LAST HOURS OF THE CHICAGO CONVENTION

The voting had gone on monotonously, through the twenty-ninth ballot when Gen. Garfield went from one to 7 votes, then fell back to one vote on the thirtieth, thirty-first, thirty-second, and thirty-third. On the thirty-fourth vote he leaped to 17 when he protested against the use of his name, but on the thirty-fifth his vote rose to 50. The following scene then occurred:

Gen. Garfield rose.

The chairman inquired for what purpose the gentleman rose.

"To a question of order," said Gen. Garfield.

"The gentleman will state it," said the chair.

"I challenge," said Garfield, "the correctness of the announcement that contains votes for me. No man has a right without the consent of the person voted for to have his name announced and voted for in this convention. Such consent I have not given."

The chairman decided that the point of order was not well taken. The thirty-sixth vote proceeded. Then the states began to get into deep water. Massachusetts with 22, Ohio with 43, New York with 20, New Hampshire with its solid 10, North Carolina with 15, Pennsylvania 21, Vermont 10, and Wisconsin 18, which last gave Garfield the 379 required for the nomination. But it was afterwards swelled to 399, and he was nominated. Then it was made unanimous.

The Convention at this point adjourned and assembled again at five o'clock p. m.

Gen. Chester A. Arthur of New York, was put in nomination for Vice-President, and nominated, and on motion of Mr. Hammond of California, made unanimous. This ended the main business of this tumultuous body.

The Convention having adjourned at 7:30 p. m., telegrams of congratulation began to flow in by the hundreds, thus:

EXECUTIVE MANSION,
WASHINGTON, June 8.

To Gen. James A. Garfield:

You will receive no heartier congratulations to-day than mine. This both for your own and for your country's sake.

R. B. HAYES.

WASHINGTON, June 8.

To Hon. James A. Garfield:

Accept my hearty congratulations. The country is to be congratulated as well as yourself.

C. SCHURZ.

Senator Blaine sent the following telegram to Gen. Garfield as soon as he received the announcement of Maine's vote on the final ballot:

WASHINGTON, D. C.,
Tuesday, 1.45 p. m.,
June 8.

Hon. James A. Garfield, Chicago:

Maine's vote this moment cast for you goes with my hearty concurrence. I hope it will aid in securing your nomination and assuring victory to the Republican party.

J. G. BLAINE.

Secretary Sherman sent the following:

Secretary Sherman yesterday morning sent the following telegram to Gov. Dennison:

WASHINGTON, June 8, 1880.

Hon. William Dennison, Convention, Chicago, Ill.:

Whenever the vote of Ohio will be likely to assure the nomination of Gen. Garfield, I appeal to every delegate to vote for him. Let Ohio be solid. Make the same appeal in my name to North Carolina and every delegate who has voted for me.

JOHN SHERMAN.

And when the nomination had occurred the following congratulation:

WASHINGTON, June 8, 1880.

Hon. James A. Garfield, Chicago, Ill.:

I congratulate you with all my heart upon your nomination as President of the United States. You have saved the Republican party and the country from a great peril, and assured the continued success of Republican principles.

JOHN SHERMAN.

The members of the House of Representatives burst into a spontaneous congratulatory meeting, with General Hawley of Connecticut, in the chair, and appointed a committee which sent the following telegram to Gen. Garfield, from his old associates:

WASHINGTON, June 8, 1880.

To General James A. Garfield, Chicago, Ill.:

Under the instruction of your Congressional associates assembled in the Hall of the House of Representatives, General Hawley in the chair, we congratulate you on your nomination as the candidate of the great Republican party for the Presidency of the United States.

GEN. CHESTER A. ARTHUR.

The Candidate for the Vice-Presidency.—His Notable Career.—Quarter Master General and Collector of the Port of New York.

Gen. Chester A. Arthur was born in Franklin county, Vt., Oct. 5, 1830. He is the oldest of a family of two sons and five daughters. His father was the Rev. Dr. William Arthur, a Baptist clergyman, who emigrated to this country from the county Antrim, Ireland, in his eighteenth year, and died Oct. 27, 1875, in Newtonville, near Albany. Dr. Arthur was in many respects a remarkable man. He acquired extended fame not only in his calling, but also in the domains of authorship. His work on "Family Names" is regard the world over as one of the curiosities of English literature.

Gen. Arthur was edubated at Union College, and was graduated in the Class of '49. After leaving college he taught a country school during two years in Vermont, and then, having managed by rigid economy to save about $500, he started for this city, and entered the law office of ex-Judge E. D. Culver as a student. After being admitted to the Bar, he formed a partnership with his intimate friend and room mate, Henry D. Gardiner, with the intention of practicing in the west, and for three months they roamed about in the western states in search of an eligible site, but in the end returned to this city, where they hung out their joint shingle, and entered upon a successful career almost from the start.

In 1852, Jonathan and Juliet Lemmon, Virginian slaveholders, intending to emigrate to Texas, came to this city to await the sailing of a steamer, bringing eight slaves with them. A writ of habeas corpus was obtained from Judge Paine to test the question whether the provisions of the Fugitive Slave law were in force in this state. Judge Paine rendered a decision holding that they were not, and ordering the Lemmon slaves to be liberated. Henry L. Clinton was one of the counsel for the slaveholders. A howl of rage went up from the south, and the Virginia Legislature authorized the Attorney-General of that state to assist in taking an appeal. William M. Evarts and Chester A. Arthur were employed to represent the people, and they won the case, which then went to the Supreme Court of the United States. Charles O'Conor here espoused the cause of the slaveholders, but he, too was beaten by Messrs. Evarts and Arthur, and a long step was taken towards the emancipation of the black race. Another great service was rendered by Gen. Arthur in the same cause in 1856. Lizzie Jennings, a respectable colored woman, was put off a Fourth-avenue car with violence, after she had paid her fare. Gen. Arthur sued on her behalf, and secured a verdict of $500 damages. The next day the company issued an order to permit colored persons to ride on their cars, and the other car companies quickly followed their example. Before that the Sixth-avenue Company ran a few special cars for colored persons, and the other lines refused to let them ride at all.

Gen. Arthur was a delegate to the convention at Saratoga that founded the Republican party. Previous to the outbreak of the war he was Judge Advocate of the Second Brigade of the State Militia, and Gov. Edwin D. Morgan, soon after his inauguration, selected him to fill the position of Engineer-in-Chief of his staff. In 1861 he held the post of Inspector-General, and soon afterward was advanced to that of Quartermaster-General, which he held until the expiration of Morgan's term of office. No higher encomium can be passed upon him than the mention of the fact that, although the war account of the state of New York was at least 10 times larger than that of any other state, yet it was the first audited and allowed in Washington, and without the deduction of a dollar, while the Quartermaster's accounts from other states were reduced from 1,000,000 to 10,000,000. During his term of office every present sent to him was immediately returned. Among others, a prominent clothing house offered him a magnificent uniform, and a printing house sent him a costly saddle and trappings. Both gifts were indignantly rejected.

When Mr. Arthur became Quartermaster-General he was poor. When his term expired he was poorer still. He had opportunities to make millions unquestioned. Contracts larger than the world had ever seen were at his disposal. He had to provide for the clothing, arming, and transportation of hundreds of thousands of men. Speaking of him at this period, a friend says: "So jealous was he of his integrity that I have known instances where he could have made thousands of dollars legitimately, and yet refused to do it on the ground that he was a public officer and meant to be like Cæsar's wife, 'above suspicion.' His own words to me in regard to this matter amply illustrate his character. 'If I had misappropriated 5 cents, and on walking down town saw two men talking on the corner together, I would imagine they were talking of my dishonesty, and the very thought would drive me mad.'"

At the expiration of Gov. Morgan's term, Gen. Arthur returned to his law practice. Business of the most lucrative character poured in upon him, and the firm of Arthur & Gardiner prospered exceedingly. Much of their work consisted in the collection of war claims and the drafting of important bills for speedy legislation, and a great deal of Gen. Arthur's time was spent in Albany and Washington, where his uniform success won for him a national reputation. For a short time he held the position of counsel to the Board of Tax Commissioners of this city, at $10,000 per annum. Gradually he was drawn into the arena of politics. He nominated, and by his efforts elected, the Hon. Thomas Murphy a State Senator. When the latter resigned the Collectorship of the port on Nov. 20, 1871, President Grant nominated Gen. Arthur to the vacant position, and four years later, when his term expired, renominated him, an honor that had never been shown to any previous Collector in the history of the port. He was removed by President Hayes on July 12, 1878, despite the fact that two special committees made searching investigation into his administration, and both reported themselves unable to find anything upon which to base a charge against him. In their pronunciamentos announcing the change, both President Hayes and Secretary Sherman bore official witness to the purity of his acts while in office. A petition for his retention was signed by every Judge of every court in the city, by all the prominent members of the Bar, and by nearly every importing merchant in the collection district, but this Gen. Arthur himself suppressed.

In a letter to Secretary Sherman, reviewing the work of one of the investigating committees, Gen. Arthur produced statistics to show that during his term of over six years in office the percentage of removals was only 2¾, against an annual average of about 28 per cent. under his three immediate predecessors, and an annual average of about 24 per cent. since 1858. Of the 423 persons in office prior to his appointment, 531 were still retained on May 1, 1877. All appointments except two to the 100 positions commanding salaries of $3,000 per year were made on the plan of advancing men from the lower to the higher grades on the recommendation of heads of bureaus. The reforms which Gen. Arthur instituted in the methods of doing business in the Custom house were as numerous as they were grateful to the mercantile community. Since his removal, he has been engaged in the practice of the law, and in the direction of Republican politics in the state, being Chairman of the Republican State Committee. In person he is over 6 feet in height, broad-shouldered, athletic, and handsome. Like his predecessor, William A. Wheeler, he is an ardent disciple of Walton and a member of the Restigouche Salmon Fishing Club, which was described in yesterday's *Times*. He is a man of great culture and wide experience, an able lawyer, with refined tastes, and manners of the utmost geniality.

Edison, the inventor of the duplex and printing telegraph and telephone, started in life as a newsboy.

"Paper, sir?" asked the newsboy. "No I never read," was the blunt reply. "Hi, boys, come here," called out the gamin, "here's a man as is practisin' for the jury."

The late Wm. M. Swain of Philadelphia, one of the most successful journalists of the present century, gave it as a result of his experience, that "while praise and compliment were very pleasant to a journalist, there was nothing that paid him so well as personal abuse and undeserved ridicule."

THE REPUBLICAN PLATFORM.

ADOPTED AT CHICAGO BY THE NATIONAL REPUBLICAN CONVENTION.

The republican party, in national convention assembled, at the end of twenty years since the federal government was first committed to its charge, submits to the people of the United States this brief report of its administration. It suppressed rebellion, which had armed nearly a million of men to subvert the national authority. [Applause.] It reconstructed the union of the states, with freedom instead of slavery as its corner-stone. [Applause.] It transformed 4,000,000 human beings from the likeness of things to the rank of citizens. [Applause.] It relieved congress from the infamous work of hunting fugitive slaves, and charged it to see that slavery does not exist. It has raised the value of our paper currency from thirty-eight per cent. to the par of gold. [Cheers.] It has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and equal in every part of our extended country. It has lifted the credit of the nation from the point from where six per cent. bonds sold at 86 to that where four per cents are eagerly sought at a premium. Under its administration railways have increased from 31,000 miles in 1870 to more than 82,000 miles in 1879. Our foreign trade has increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $264,000,000 more than our imports in 1879. [Applause.] Without resorting to loans it has since the war closed defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions. It has paid $888,000,000 on the public debt, and by refunding the balance at lower rates has reduced the annual interest charged from nearly $151,000,000 to less than $89,000,000. All the industries of the country have revived, labor is in demand, wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the republican party ask for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

First—We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved, after that the peace regained should be cherished; that the dissevered union, now happily restored, should be perpetuated, and that the liberty secured to this generation should be transmitted undiminished to future generations; that the order established and the credit acquired should never be impaired; that the pensions promised should be extinguished by the full payment of every dollar thereof; that the reviving industries should be further promoted, and that the commerce, already so great, should be encouraged.

Second—The constitution of the United States is a supreme law, and not a mere contract. Out of confederated states it made a sovereign nation. Some powers are denied, while the others are denied to the states, but the boundary between the powers delegated and those reserved is to be determined by the nation and not by the state tribunals [Applause.]

Third—The work of popular education is one left to the care of the several states, but it is the duty of the national government to aid that work to the extent of its constitutional duty. The intelligence of the nation is but the aggregate of the intelligence in the several states, and the destiny of the nation must be guided not by the genius of any one state, but by the average genius of all.

Fourth—The constitution wisely forbids congress to make any law respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism while each state is exposed to its domination. We, therefore, recommend that the constitution be so amended as to lay the same prohibition upon the legislature of each state, and to forbid the appropriation of public funds to the support of sectarian schools. [Cheers.]

Fifth—We affirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be discriminate as to favor American labor, [applause]; that no further grant of the public domain should be made to any railway or other corporation; that slavery having perished in the states, its twin barbarity, polygamy, must die in the territories, [applause]; that everywhere the protection accorded to citizens of American birth must be secured to citizens of American adoption, and that we esteem it the duty of congress to develop and improve our water courses and harbors, but insist that further subsidies to private persons or corporations must cease; that the obligations of the republic to the men who preserved its integrity in the hour of battle are undiminished by the lapse of fifteen years since their final victory. To do them perpetual honor is and shall forever be the grateful privilege and sacred duty of the American people.

Sixth—Since the authority to regulate immigration and intercourse between the United States and foreign nations res's with the congress, or with the United States and its treaty-making power, the republican party, regarding the unrestricted immigration of the Chinese as an evil of great magnitude, invoke the exercise of the powers to restrain and limit that immigration by the enactment of such just, humane and reasonable provisions as will produce that result.

Seventh—That the purity and patriotism which characterize the earlier career of Rutherford B. Hayes, in peace and war, and which guided the thoughts of our immediate predecessors to him for a presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to an efficient, just and courteous discharge of the public business, and will honor his interposition between the people and proposed partisan laws. [Cheers.]

Eighth—We charge upon the democratic party the habitual sacrifice of patriotism and justice to the supreme and insatiable lust of office and patronage, and to obtain possession of the national and state governments, and the control of place and position, they have obstructed all effort to promote the purity and to conserve the freedom of suffrage, and have devised fraudulent certificates and returns, have labored to unseat lawfully elected members of congress, to secure at all hazards the seats of a majority of the states in the house of representatives; have endeavored to occupy by force and fraud the places of trust given to others by the people of Maine, and rescued by the courage in action of Maine's patriotic sons; have, by methods vicious in principle and tyrannical in practice, attached partisan legislation to appropriation bills, upon whose passage the very movements of government depend; have crushed the rights of indivicuals; have advocated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimably valuable results of nationality, personal freedom and individual equality. The equal, steady and complete enforcement of laws and the protection of all our citizens in the enjoyment of all privileges and immunities guaranted by the constitution are the first duties of the nation. The dangers of a solid south can only be averted by a faithful performance of every promise which the nation has made to the citizen. The execution of the laws and the punishment of all of those who violate them are the only safe methods by which an enduring peace can be secured and genuine prosperity established throughoue the south. Whatever promises the nation makes the nation must perform, and the nation cannot, with safety relegate this duty to the states. The solid south must be divided by the peaceful agencies of the ballot, and all opinions must there find free expression, and to this end the honest voters must be protected against terrorism, violence or fraud; and we affirm it to be the duty and the purpose of the republican party to use every legitimate means to restore all the states of the union to the most perfect harmony that may be practicable, and we submit to the practical, sensible people of the United States to say whether it would not be dangerous to the dearest interests of our country at this time to surrender the administration of the national government to the party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring distrust and confusion where there is now order, confidence and hope.

A CIVIL-SERVICE PLANK.

The resolutions having been then read by the secretary, Mr. Barker of Massachusetts, moved to amend by adding the following:—"The republican party, adhering to the principles affirmed by its last national convention, of respect for the constitutional rules governing appointment to office, adopts the declaration of President Hayes, that the reform in the civil-service shall be thorough, radical and complete; to that end it demands the co-operation of the legislative with the executive departments of the government; and that congress shall so legislate that fitness ascertained by proper practical tests shall admit to the public service; that the tenure of administrative offices (except those through which the distinctive policy of the party in power shall be carried out) shall be permanent during good behavior, and that the power of removal for cause, with due responsibility for the good conduct of subordinates, shall accompany the power of appointment.

Mr. Anthony of Illinois, moved an amendment, which Mr. Barker accepted, and the amendment of Mr. Barker was adopted, and then the resolution as amended was also adopted without a call of states.

The resolution as adopted omits the tenure of office clause, otherwise it is practically as originally introduced.

The Norfolk *Day Book* cuts at the Funders of the Old Dominion with a two edged sword, thus:

What kind of a government for the people does the miserable Funder faction propose to make, with a clear majority of 30,000 of the people against it? The loaves and fishes and the sweetness of official authority have inspired them to attempt a new deceit on the people.

Now, let all who favor "a government by the people" or "a government in the interest of the people" unite to readjust the state first, and whatever needs adjustment after that. We may be sure that the Funders will not cast the electoral vote of Virginia for the nominee of Cincinnati nor of Chicago. We can't afford, in the interest of the state, to leave any of them in power.

A Boy Again.

Sometimes an old man becomes a boy again, though too smart to drop into his second childhood. An illustration of this pleasant tendency was given, not many months since, by an old man, with several million.

He was in the habit of prowling around the office of the insurance company in which he was a director. One morning as he was thus investigating, he happened to come across the dinner pail of the office boy. His curiosity led him to take off the cover. A slice of home-made bread, two doughnuts, and a piece of apple pie tempted the millionnaire's appetite. He became a boy again, and the dinner pail seemed the one he had carried sixty years ago.

Just then, the office boy came in and surprised the old man eating the pie—he had finished the bread and the doughnuts.

"That's my dinner you're eating!" exclaimed the boy, indignantly.

"Yes, sonny, I suspect it may be; but it's a first rate one, for all that. I've not eaten so good a one for sixty years."

"There," he added, as he finished the pie, "take that and go out and buy yourself a dinner, but you won't get as good a one,"—and he handed the boy a five dollar bill.

For days after, the old man kept referring to the first-class dinner he had eaten from the boy's pail.

A proposition is made in New Jersey to enact a law requiring all amateur printers to take out license. It is not at all probable that it will be carried into effect.

Political.

The U. S. Senate has confirmed the nomination of Hon. Horace Maynard to be Postmaster General vice Hon. D. M. Key.

The Raleigh *Post* pertinetly says in regard to the coming national canvass:—

The Democratic party has done little in Congress since it obtained the majority foot-hold there to make it invincible before the country—it has not been materially strengthened in the affections of the people, and we must expect to go before the country on well-defined issues and under strong and unimpeachable leaders, if we expect to win. We shall be put more on the defensive in this canvass than during any campaign year since 1860.

Gen. Scales, Member of Congress from the 5th district, informs his friends that he would not refuse to enter the canvass as a candidate for Governor, but that he thinks he can be of more service to the state in Congress.

Col. William Lamb, known to many people here during the war on account of being in service at Fort Fisher, where he was wounded in the assault in which Fisher fell, is now a Readjuster or Liberal in Virginia, of the Mahone school, of whom the Norfolk *Day Book* says, that "Col. Lamb is no less imbued with the principle of true Democracy now than he ever has been, but he is honest enough to make himself consistent in it. Finding that the Democratic principle of the people being the rulers, is subverted by the practice of the so-called Bourbon Democratic party, he is honest and consistent enough to quit that party and join the people's cause as expounded by the Liberal leaders." And that he is opposed to those who "have taken the state's revenues and allowed the miserable rings to divide it out among themselves." Col. Lamb appears in a card in which he says, "I asserted the proposition that the prosperity of our city and our state were of more importance to us than who should be the next President of the United States," and that "if Federal legislation were needed for the prosperity of Virginia, it was not the fault of Mr. Hayes for the present Democratic Senate and House had passed no act for the material interest of the country, which the President had vetoed."

Eccentricity of Texas Preachers.

Texas preachers are said to be very eccentric, and their mild unnaturalness has given rise to a great many remarks and a few stories. The following anecdote was told us confidentially:

A minister arose before a large audience, took his text and began preaching. A brisk firing of pistols began on the outside of the church.

"Brother deacon," said the minister, "I believe those fellows are casting insinuations at me. In fact, I am very nearly convinced," he continued as a piece of plastering fell from the wall close to his head.

"I think, parson, that it refers to some one else," replied the deacon.

The minister raised a tumbler of water, and was in the act of applying it to his lips, when the glass fell, shattered by a shot.

"This is an innuendo no longer," said the minister, wiping the water from his vest. "This is what I call an unmistakable thrust. The congregation will please sing while I go and investigate the matter. Is there another preacher in the house?"

"Yes," said a man, throwing down a stick which he had been whittling, arising and pulling at the waist of his pants like a man who had just straightened up after setting out a row of tobacco across a broad field.

"Got on an extra?"

"Yes."

"Unlimber."

The whittling preacher handed over a Remington pistol, which the insulted preacher took, and drawing one from his belt started out. After going out there was an immediate improvement in the firing business. It was decided by more life-like, insomuch that the deacons sat working their fingers. After a while the minister returned, and placing an ear and the nostril and half of a nose on the pulpit, remarked, "He that hath ears to hear, let him behave himself." The sermon then proceeded without interruption.—*Little Rock (Ark.) Gazette.*

The Philadelphia *Ledger* says:

On Saturday evening the main hall, dining-room, office, and bar-room of the Continental Hotel were brilliantly illuminated with the Brush electric light, six burners being used, each, it is stated, costing 1 cent an hour. In the dining-room, where heretofore 144 gas-burners have been used, there will be in the future two electric lights. The electro-dynamic machine is run by the steam engine which moves the elevator, and the lessee of the hotel believes that the saving in the cost of lighting will be very great. In some years when the city gas was used, the bills ran as high as $21,000 for twelve months. It was noticeable on Saturday that the lights burned steadily, with no perceptible flicker. This light is only adapted for large rooms or halls, and will not be used in the sleeping rooms at the Continental.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for Consumption, Bronchitis, Catarrh Asthma, and all throat and lung, affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge to all who desire it this recipe, in German, French, or English, with full directions for preparing and using. EDITOR POST:—I see an article in your issue of the 30th of last month written from Long Creek, signed "A Good Republican," it is quite a sensible and well written article, and I cannot refrain from saying something about the advice given by the writer of the article to the colored people about making their bread and meat, and making turpentine and trading with country merchants. It is good advice and all the colored people ought to take the advice and we would all be better off than we are. If we would make what we eat and not be always taking our bags to the stores for our rations we would be better off.

The crops are looking nice in this section since the recent rain. Cotton is fine. I never had a better crop before.

I see that the Democrats have nominated Mr. J. W. Shackelford, of Onslow, as their candidate for Congress. I ought to have said in beginning that this county is solid for the Hon. W. P. Canaday. I think that if other counties of this district will follow this county in nominating Mr. Canaday, there will not be any trouble about electing him to that position of which he is worthy and which he is so capable of filling We ought and must have him, and this county will do all she can to elect him. No doubt that he can carry more strength than any other Republican in this district.

I see that 'Good Republican" would like to hear "from other sections of the county" as to electing Gratlan Williams, Esq., to the office of Register of Deeds. A Democrat, I think Mr. Williams would be the right man in the right place. The Republicans cannot say any harm of him except that he is a *liberal* Democrat. I think that he is honest in his views and would make a good officer, if he is elected. I think that this township will go for him at the convention and at the polls. You may expect to hear from me again.

A COLORED MAN.

The North Pole—What Good Would Come from the Discovery of it.

Some people have asked, says a Washington letter, what good can result from finding the North Pole? The late Prof. Henry is on record as saying the magnitude of the earth requires more observations in this direction than have been made; that we cannot complete our knowledge of the tides of the ocean, or of the winds of the globe without finding the Pole; besides that, the whole field of natural history will be enriched by it, especially botany, geology, and mineralogy. The facts about the effects of extreme cold on animal and vegetable life cannot be but interesting. As Professor Henry said, it will lead not only to enlarge the sphere of mental pleasure of man, but will promote the application of science to the arts of life. Prof. M. F. Maury puts it in this way:

"Within this polar area the tides have their cradle, and the whales their nursery. There the winds complete their circuit, and the currents of the sea their round, in the wonderful system of oceanic circulation; there the aurora is ignited up and the trembling needle brought to rest; and there, too, in the mazes of that mystic circle, terrestrial forces of occult power, and of vast influence upon the well-being of man, are continually at work. It is a circle of mysteries, and the desire to enter it, to explore the untrodden wastes and secret chambers, and to study its physical aspects, has grown to a longing.

There is an unknown area of 1,131,000 square miles of the surface of the globe that is now a blank. We cannot tell whether this area is land or water, This question, among others, these explorations will determine. For what we will learn about "the nursery of whales" we will be repaid all it costs to carry this work to completion. Capt. Howgate will probably manage to be on hand in five or six years, as the work is nearing completion. He is enthusiastic and confident of success.

Nashville got its name from General Francis Nash, a brave soldier of the Continental army who fell mortally wounded at the battle of Germantown.

It is stated that France now calls into action the enormous amount of 1,1000,000 horse-power, representing the effort of no less than 14,000,000 men—that is, in fact, a population actually greater than that of the workmen of the whole country.

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. MCLANE'S LIVER PILLS.

The genuine MCLANE'S LIVER PILLS bear the signatures of C. MCLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. MCLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

THE WILMINGTON POST.

WILMINGTON, N. C.
SUNDAY MORNING, JUNE 13, 1880.

Stop your hair from falling out by using Hall's Vegetable Sicilian Hair Renewer, a sure preventive.

Twenty years convert infants into lovers, fathers and mothers, dandymen's fortunes and distinctions, convert active men and women into crawling drivelers, and bury all preceding generations.

There are in Fall River thirty three incorporated companies for the manufacture of cotton goods, whose combined incorporated capital is $14,600,000, and who own forty-five mills containing 1,361,191 spindles and 32,622 looms.

A man was struck down by paralysis in a Michigan saw mill. He fell across a log which was being sawed, and was carried with it slowly but surely to the saw. He was conscious, but utterly, helpless. The saw had cut half way through his arm when his awful predicament was discovered.

Nearly all over the ocean the temperature at 500 fathoms is as low as forty degrees, and this is the case even immediately under the equator in the Atlantic and Pacific oceans. Below 200 fathoms the temperature is never more than a few degrees above freezing point, excepting in the peculiar causes of locked seas.

The "National Republican" to-morrow will say: "The nomination is not as much of a surprise as was that of Mr. Hayes in 1876, and is certain to be stronger with the people. Gen. Garfield combines the best elements of the soldier and the statesman, and he will not lose a single Republican vote in in the United States which would have been cast for Gen. Grant. To sum up, we think the choice of the Convention is stronger as a candidate than would have been any of those who were prominent as opponents of Gen. Grant, and that he will be satisfactory to every sure Republican state, will put Ohio beyond dispute, and will succeed in the doubtful states against any man the Democracy can possibly select.

DR. HARTER'S IRON TONIC

A lady who had been doctored nearly to death for several years, has been cured of *Debility* and *Great Prostration* by the use of DR. HARTER'S IRON TONIC, which raised her from her bed, where she had been lying for, many months."

Dr. Harter:— Mr. James Brown of our county, has requested us to tender you his grateful acknowledgments for the great benefits his wife received from the use of your IRON TONIC. He tells us that, after having paid three or four hundred dollars doctors' bills, two bottles of your IRON TONIC did her more good than all other medicines she ever used. She was troubled with *Derrangement of the Womb, Whites, etc.*, from which she is much relieved.

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases, caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AYER'S PILLS are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel, or any injurious properties, and can be administered to children with perfect safety.

AYER'S PILLS are an effectual cure for Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver, and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

JEWELRY

$75.00 worth for $15.00

—AND A—

Solid Abysinian Gold Watch

FREE!

The above offer is genuine, although at first sight you would consider it impossible. We will explain: Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jewelry and Watches, often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturer's price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other countries during the months of June, July and August (the time when the Jewelry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled and which we have bought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of the goods, giving opposite each article its regular retail value, and sell to you at the rate of Five Dollars' worth for $1.00. For instance, on receipt of 50 cts., we will send you, POSTPAID, any article to the value of $2.50; on receipt of $1.00 articles to the value of $5.00, and so on throughout the entire list. Below we give a list of the most valuable of these goods.

Read What the Chicago Press Say of Us, And Send In Your Orders.

The Sentinel, of Chicago, Sept. 8, says: "We call the attention of our readers to the new advertisement of the Inventors' Agency, No. 116 E. Washington Street, Chicago. What the Inventors' Agency agrees to do they will do. The Sentinel has advertised for the concern since its first publication and we have yet to hear of the first complaint against it."

The Chicago Express, Sept. 3d, says: "The attention of readers is called to the advertisement of 'The Inventors' Agency,' office and rooms located at 116 Washington Street, Chicago. From personal inquiry and on the recommendation of the city press, we think our friends can do no better when wanting goods in that line. Give them a trial."

The American Stockman, Sept. 11th, says: "We believe this institution perfectly sound and responsible, and consequently persons need have no hesitation about sending for what they desire."

As to our responsibility we also refer you to the following firms: Blomgren Bros., 162 & 164 So. Clark St., Chicago, Ill.; Miller, Wagner & Umbdenstock, 119 So. Clark St., Chicago, Ill.
